Objective:

I am currently working as a compliance tester and would like to steer my career further along the path to developer. I have a broad skill set in the field of software development but have tended to gravitate toward Java which I would have to single out as my specialization, if I absolutely had to, but I'd resist to the last. This is because I also have a passion for GNU/Linux, Open source software & hardware, Software licencing, Development/Testing methods and languages. I remain brief on details here as the many projects listed below will help clarify my interests and passions.

I feel the position of <> would be a good fit for my abilities as <>.

Experience:

BMM:

- Verification, compliance, source code comparison.
- Remote and onsite working.
- Documentation of process. Ongoing use after over five years.
- Reference: Khanh Ho (Direct manager for 5 years).

Latrobe:

- Bachelor of Arts / Bachelor of Information Technology (Bachelor of Information Science).
- Major in Logic & IT focus on Programming and Language.

Skills & Projects:

Java:

- Lambda LEDs and presentation at [puzzleduck.org/DevAdventures/da08.html]
- Dogfooding my own app for over a year, [PuZZleDucK/XorElse]

Linux:

- Kernel code cleanup [puzzleduck.org/Linux/linux03.html]
- Bash Logging update to [github.com/alecthegeek/CCHS_Raspian_for_IoT]
- Finally my resume is text (and HTML, and css, and pdf). The important thing is that the source is available here: [github.com/PuZZleDucK/Resume]

Android:

- [[PuZZleDucK/Orbital-Live-Wallpaper](#)]
- Others on [[code.google](#)] and [[sourceforge.net](#)]

Affiliations:

I am the owner and sole maintainer of [puzzleduck.org] where I publish most of my projects.

Creator of obscure software licencing joke video: [youtube.com/watch?v=S5e7PjIB2lo],

Member of Melbourne JVM meetup (Presenter for: Lambda LEDs **ibid Java**),

Member of LUV member (Presenter for: lightning talk),

Member of Melbourne Coding Dojo (BDD live coding),

Participant at BattleHack Melbourne 2015: [twitter.com/braintree_dev/status/561716304819015682],

and any other code challenges that come my way: [code.google.com/p/visualise-melbourne-art-timeline/]

Member of OWASP Melbourne,

Member of Melbourne Raspberry Jam,

Member of Hack & Tell,

Member of Engineering Machine Consciousness,

Member of IoT Melbourne

and various other less regular meetups and technology events, hope to run into you there.
